ByoFresh

Grooming & Deodorising

Smelly dog? All dog owners know the problem. Maybe not all the time, but certainly sometimes. **Now at last there is an effective answer – Byotrol.**

Byotrol eliminates the causes of nasty odours. When a dog smells bad it's because there is something in its coat that is causing it. Most shampoos will wash away 99% of the problem, but then it comes back. Most sprays and wipes use a perfume to mask the smell.

Byotrol gets to the route of the problem and eliminates the smells at source.

Perhaps it is not surprising that it won **Glee's 2006 Highly Commended New Product.**

Try it on a smelly dog yourself and smell the difference! Now improved with the next generation of Byotrol, it is **even more effective than before.**
